Objective

Motivated Backend Developer specialized in .NET Core Web API with strong attention to detail and a solid background in databases, data handling, and analytical thinking. Passionate about learning and transitioning into the Data Analysis field, combining backend expertise with data-driven problem solving.

Education

Helwan University — Faculty of Computer Science & AI
Information Systems Department (Expected Graduation: 2026)

Technical Skills

- Languages: C#, SQL
- Backend Frameworks: .NET Core, Laravel
- API Development: RESTful API, Postman, Swagger
- ORM & Database: Entity Framework (Code First & Database First), SQL Server, LINQ
- Security: JWT, Identity
- Architecture & Patterns: OOP, Repository Pattern, Dependency Injection, Monolithic and microservice.
- Message Brokers: Kafka, RabbitMQ
- Version Control: Git & GitHub

- UI Tools: Figma, Adobe Photoshop, Illustrator
- Data & Analysis Basics: Excel, Power BI, SQL Queries, Tableau, Basic Machine Learning (Regression, Classification, Clustering, Association)
- Other: Basic Statistics, Math Concepts

Projects

Real Estate Management System — Backend Developer

- Developed secure and scalable RESTful APIs using .NET Core.
 - Implemented full system security using JWT Authentication & Identity.
 - Designed and managed database structure using Entity Framework and SQL Server.
 - Built full Post management module: store, edit, delete, retrieve posts, and handle attached data securely.
 - Applied Repository Pattern and Dependency Injection to enhance code maintainability.
- Tech Stack: C#, .NET Core API, SQL Server, EF, JWT, DI, Modular Monolithic Architecture, React (frontend integration)

Certifications & Trainings

- ITI — Backend .NET Core API (2025)
- ITI — Backend .NET Core API (2024)
- ITI — Full Stack Laravel
- ITI — UI/UX Design
- ITI — Summer Training (Hands-on tasks, online sessions by instructors)

Soft Skills

- Attention to Detail
- Problem Solving
- Time Management
- Teamwork & Collaboration
- Communication Skills
- Work Under Pressure
- Adaptability & Quick Learning

Languages

- Arabic — Native
- English — Very Good
- French — Beginner

Interests

Backend Engineering | Databases | APIs Security | Data Analysis | Data Visualization |
Machine Learning Basics
